Policy Statement

At Banstead Prep School the EYFS curriculum is rich, exciting and engaging. The Early Years Foundation Stage (EYFS) extends from the age of 0 – 5 years, and children are accepted into our Nursery the term after their second birthday. The EYFS is important in preparing children for later schooling. It is the Early Learning Goals that set out what is expected of most children by the end of the EYFS. Every child deserves the best possible start in life and support to fulfil their potential. A child's experience in the early years has a major impact on their future life chances. A secure, safe and happy childhood is important and it provides the foundation for children to make the most of their abilities and talents as they grow up. At Banstead Prep we do everything possible to provide an environment that is stimulating and exciting to young minds, in an effort for every child to maximise their potential as independent learners.

This policy applies to all members of our EYFS school community. Banstead Prep School is fully committed to ensuring that the application of this policy is non-discriminatory in line with the UK Equality Act (2010). Further details are available in the school's Equal Opportunity Policy document. Banstead Prep School seeks to implement this policy through adherence to the procedures set out in the rest of this document.

Aims

- to support the learning and development of each child and ensure that all children receive a broad, high-quality education
- to ensure that our EYFS pupils are fully prepared for the challenges of the Pre-Prep and Prep curriculum
- to ensure that all pupils are happy, healthy and safe.

This policy applies to all members of our EYFS school community and should be read in conjunction with the following documents: Assessment, Recording and Reporting; Special Educational Needs/Gifted and Talented; Safeguarding and welfare, Equal Opportunities; EYFS, PSHCEE; and individual subject curriculum policies.

The curriculum and PSHCEE programme at Banstead Prep School promote the fundamental British values of democracy, the rule of law, individual liberty, and mutual respect and tolerance of those with different faiths and beliefs. The curriculum and PSHCEE programme encourage respect for groups protected by the UK 2010 Equality Act. The PSHCEE programme and assemblies provide pupils with social, moral, spiritual and cultural education, as well as valuable opportunities to promote key British values.

Banstead Prep School is fully committed to ensuring that the application of the EYFS Curriculum Policy is non-discriminatory, in line with the UK Equality Act (2010). Full details are available in the school's Equal Opportunities Policy document. Banstead Prep School is also committed to instilling in its pupils through its curriculum the key values of the school, in particular that all pupils should feel valued and recognised and that the views of others should be respected. Our curriculum provision therefore precludes the teaching of any partisan political views in any curriculum subject. Where political issues are brought to the attention of pupils, they are offered a balanced presentation of opposing views.

Principles of the Early Years Curriculum

At Banstead Prep School, we believe that:

- the youngest pupils benefit most from a broad, stimulating, challenging curriculum that encourages exploration and discovery through purposeful play and teacher-led lessons
- the curriculum should be designed to develop the whole child
- all pupils in a year group should have equal access to the curriculum
- all pupils including those with SEND (special educational needs or disabilities) or EAL (English as an Additional Language), will have the opportunity to learn and make progress

Banstead Prep School is committed to the EYFS themes and principles which set out the standards for the learning, development and care of children from birth to 5.

The principles and themes are:-

- A Unique Child. Every child is a unique child who is constantly learning and can be resilient, capable, confident and self-assured.
- Positive Relationships. Children learn to be strong and independent through positive relationships.
- Enabling Environments. Children learn and develop well in enabling environments in which their experiences respond to their individual needs. There is a strong partnership between practitioners, parents and carers.
- Learning and Development. Children learn and develop in different ways. The framework covers the education and care of all children in the Early Years including children with special needs and/or learning difficulties.

The Early Years Curriculum

The curriculum is designed to be broad and challenging and to allow each pupil to develop their talents fully. Class teachers remain with their forms for the majority of the time, but specialist teachers take the children for Music, French, PE, Swimming and Forest School each week (alternating weeks). This extends to drama lessons for the Reception children.

Areas of Learning

The EYFS statutory framework provides a structure for planning and evaluation of the curriculum for children aged 0 to 5 years. The Early Years curriculum is formed of three prime areas of development:

- Communication and language and literacy
- Personal, social and emotional development
- Physical development

And four specific areas of development:

- Literacy
- Maths
- Understanding the world
- Expressive arts and designs

Speaking and Listening

Children are encouraged to develop their speaking and listening skills throughout the day. Adults are responsive to infants' early vocalisations and gestures in order to support their language development. Children are encouraged to initiate and sustain conversations with adults and their peers. During these conversations' children develop the confidence to speak clearly, listen, ask questions, give explanations and take turns. Adults use songs, finger rhymes and music to develop listening skills.

Literacy

In each classroom there is a collection of books. The children are told stories and rhymes from a variety of cultures. Adults read to children often encouraging them to speak about the story. As children grow older, they are encouraged to retell well known stories and rhymes and recognise familiar words and letters. These activities help children to understand that print conveys meaning. Adults use story props to support concentration and develop comprehension skills. Nursery classes begin phonics when they are ready and Reception children are taught to read using the Read Write Inc. scheme. Throughout the year there are many opportunities for learning English through play, including speaking and listening activities, which help build vocabulary and confidence. Role-play activities and Small World toys along with open ended natural resources encourage pretend play. Staff and children read stories regularly and create class stories and books. Whole school assemblies, 'Show and Tell', 'Chatter Bags' and School Productions offer multiple opportunities for children to perform in front of an audience.

Children are given many opportunities to explore creative activities to develop their writing skills. Adults help children to understand that print conveys meaning and the conventions of English script. For example, print moves from left to right and top to bottom. Lines of writing are divided into words; words are divided into letters and each letter has a name and a sound.

Children are taught letter formation at the appropriate stage of development for the individual child. At Banstead Prep School we use a cursive handwriting scheme.

Personal, Social and Emotional

PSED is taught across all areas of the curriculum and is followed up with regular circle times. Children learn to work together, take turns and play co-operatively. They are made aware of the expectations set and rules and boundaries which are in place. Children learn to behave in a way that keeps them and those around them safe. They are taught to be kind and to respect others and their environment.

They are taught about right and wrong and discuss the Pupil Code of Conduct. They learn to use social skills in different contexts and are taught strategies to help with conflict resolution. There are many opportunities for team building.

Children are encouraged to be confident and proud of their achievements. Each child has the opportunity to share in assembly and be rewarded with Star of the Week. These achievements are also celebrated in the weekly Pre-Prep Newsletter sent to parents.

Independence is expected in work, play and in managing personal needs and behaviour. Parents are encouraged to teach their children to dress and feed themselves. Instruction in personal hygiene is given throughout the day and its importance is emphasised.

Healthy eating is actively encouraged, and children are taught about good table manners and the need to wash their hands before eating or taking part in cooking activities. All food, including snacks are provided and prepared on site by the kitchen staff. Oral health is an important part of development and children are taught about good hygiene practises, including brushing their teeth twice a day.

Physical Education

All children have PE lessons every week with a specialist teacher. In these lessons they learn many skills which supports their physical development. They have the opportunity to develop their co-ordination and control, as well as learn how to work as part of a team. Reception children have weekly swimming lessons. Children have access to the outdoor area every day and have opportunities to ride tricycles, climbing equipment, sand pit, ball games as well as accessible outdoor Maths, Literacy and Reading areas.

Mathematics

Children's numeracy development occurs as they make connections and work with numbers. Children begin to use mathematical concepts to analyse, communicate information and tackle a range of practical tasks and real-life problems. Numeracy involves developing an awareness of concepts, such as heavier and lighter, and

mathematical rules such as addition and subtraction. In Reception, we use Numicon equipment and software to introduce new concepts. Children are taught how to form numbers correctly from a young age and they are introduced to formal recording, particularly of addition and subtraction calculations before moving to Year 1.

Understanding the World

Planning is cross curricular and covers a different topic each half term. The topic is decided through a whole class topic discussion in which the children can put forward their interests. Activities are then planned around the topic.

All children participate in activities and games on the Interactive Board throughout the year. The children also have supervised access to iPads and teachers will prepare activities for the children on these throughout the year.

The children gain opportunities to experience life in the local community. The Nursery Adventurer children take part in Boogie Beats sessions at Sunrise Senior Living where they meet the residents and take part in music and movement sessions together.

Expressive Art and Design

A large variety of creative materials are available for the children to use throughout the year, both indoors and outdoors. Children are also given opportunities to display examples of 2D and 3D pieces through displays in the classroom.

Each class has a two half-hour music lessons with a specialist teacher every week. They have the opportunity to explore and learn about a range of instruments and musical techniques and learn a variety of different songs. In the Autumn Term the Reception children learn songs for the Harvest Festival and both Nursery and Reception children learn songs for their Christmas productions. The children get used to performing in front of an audience through concerts and productions.

Children are encouraged to use their imagination and be creative in all areas of the curriculum. The children get opportunities each day to use the outdoor area and all EYFS children experience Forest School session across the academic year. Discoverers and Explorers in the form of 'Welly Walks' and Adventurers and Reception take part in every other week Forest School sessions. Forest School enables us to instil an appreciation of the natural world in children from an early age and embeds the importance of looking after nature and a sense of responsibility to do so. Sessions are intended to give children time to be outdoors and the freedom to be themselves.

The children learn about the community in which they live through assemblies, visiting speakers and lessons focusing on religious festivals. They are encouraged to work together well and they are taught the British Values of tolerance, respect and tolerance for all. The Reception children attend at least one trip each term.

Provision for pupils with SEND

The school has regard to the SEND code of practice 2014 and teachers are aware that when planning and teaching they must be mindful of the four areas of need; communication and interaction, cognition and learning, social, emotional and mental health and sensory and/or physical needs. There is a clear approach to identifying and responding to SEN and there is a continual monitoring and review of pupils who have been identified as needing support. When a pupil is not reaching the expected developmental milestones, a cycle of action; assess/plan/do/review is initiated with guidance from the SENCO. Where necessary, external help from specialists is sought including requesting EHCP assessments. Parents are informed if their child is receiving SEN support.

EAL Support Pupils

Pupils for whom English is not their first language (EAL) are supported by the class teachers and nursery/teaching assistants in the first instance and their progress is tracked and monitored. Continual monitoring of EAL pupils takes place.

Child-Initiated Activities

The curriculum allows time for children to make choices and take the lead in their learning. During child-initiated activities, children can consolidate new skills and develop their self-esteem. Staff take an active role during child-initiated play by extending, facilitating, scaffolding and play-partnering.

The Importance of Play

During play, children explore, discover, solve problems and learn to understand the need for rules. Play gives children the opportunity to think creatively alongside others, as well as on their own. They can express their fears in a safe and secure environment whilst having the opportunity to take risks and make mistakes. They will be involved in group and individual play, initiated by adults and children, using a wide range of resources.

Daily routines are adhered to, as far as possible. We provide a routine which is conducive to effective learning. The children find security and a sense of order in this practice of routine and we aim to lay a solid foundation for a formula that increases their chances of achieving a successful and fulfilled life as an adult.

In the EYFS, we build on what children have already learned at home and we lay a solid foundation for their future formal education. The environment that we provide is a secure and caring educational one, where they acquire grounding in the fundamentals of learning, and ensure that no child is excluded or disadvantaged. This is strongly promoted by developing strong ties with parents and encouraging feedback from both parties.

Planning

The curriculum is planned as follows:

- Long Term Plan - each year we agree a long-term plan outlining the topics we will focus on throughout the year, alongside the children's interests.
- Medium Term Planning (half termly) - includes children's interests and strengths based on observation, class discussion (child's voice), continuous provision plans and the parent voice sheet.
- Weekly plan - includes both pre-planned and spontaneous experiences. This is a flexible document which can be adapted according to the needs of the children. Notes and evaluations of teaching and learning are made about individuals and groups of children to help staff plan next steps for children.

Children in the Nursery and Reception classes are provided with a balance between child-initiated play and involvement in adult focused activities. These child-initiated and adult-led activities are reflected in the teacher's planning and take place both inside and outside in the Outdoor Learning Area, where carefully planned resources are set out daily to support the children's learning and development. Their choices are carefully monitored and, when necessary, they are guided and redirected. This is to ensure that each child is gaining a balance and breadth of learning. Giving children the opportunities to make choices and organise their play at an early age will prepare them for the time in later years when they have to make important decisions. The choices are made from activities that are well planned, purposeful and progressive, providing an appropriate level of interest for all the children in the Nursery, whatever their needs or abilities.

Observation

Observation in Early Years is on going and is an integral part of assessing the children's progress. We make systematic observations of their achievements and interests to identify learning priorities for individual children. Reflections and 'Wow' moments are recorded on Tapestry for Nursery and SeeSaw for Reception.

Assessment and Reporting

All Early Years children have an online Pupil Profile which highlights their individual progress in each of the prime areas of learning, specific areas of learning and Early Learning Goals and achievement. Teacher observations, children's work and photographic evidence are included. This builds the pupils' EYFS Profile from aged 2 through to the end of the final term of the year in which they reach 5.

Assessment is an ongoing process which involves all staff who work with the children. Parents can access and contribute to these Pupil Profiles. Nursery families have access to Tapestry and Reception families have access to SeeSaw.

Children are assessed on entry In Reception (baseline assessment) and continually in a formative manner. 2-year progress checks are carried out at the end of the term that the

child turns 2 or at the end of the first term from when they joined the school. Reception aged children carry out PIRA and PUMA assessments in the Summer Term and they are also assessed against the EYFS Early Learning Goals in the Summer Term; this data is shared with the parents and the County.

Nursery parents receive a 'Planning and Summary sheet' about their child's progress in the Prime Areas of Learning in line with parents' meetings in the Autumn, Spring and Summer Term. Reports for Reception parents are produced to feedback on progress, attainment and indicate targets/next steps on the 'Prime Areas of Learning' at the end of the Autumn and Spring Terms, and on all areas of learning and attainment against the Early Learning Goals at the end of the Summer Term. Reception parents are offered to come into school to discuss achievement against the Early Learning Goals in the Summer term.

Formal parents' evenings are held twice a year for Reception children; however, parents are encouraged to contact the school at any time if they have any concerns about the progress their child is making. Likewise, BPS staff contact parents if a pupil is not making expected progress.

This document is available to all interested parties on the school's website and on request from the school office. It is reviewed annually by the Senior Leadership Team or as events or legislation change requires. The next scheduled date for review is September 2022.
